Training Topic: **Vent-Enter-Search (VES) Operations**

1. Training Subject: Two-Person VES Technique for Structure Fires
2. Drill Objectives: To practice and improve teamwork, efficiency, and safety during a two-person VES operation in a simulated structure fire environment.
3. Description of Training:_____
   Conduct a VES drill with two personnel. This involves locating and accessing a designated entry point, performing a controlled window entry, conducting a primary search of a room for potential victims, and ensuring fire control measures were adhered to during the operation. Emphasis placed on maintaining communication, situational awareness, and adhering to safety protocols and verbally communicating "Victim, Victim, Victim" when locating a victim. A review of the drill must be followed with critiques as needed to highlight strengths and areas for improvement.
